<b>G2 Medicine of Adulthood and Aging I</b>	Medical Sociology Occupational Medicine I General Medicine I Palliative Medicine	Forensic Medicine Dermatology	

\*\*C2: 6 ECTS, G2: 6 ECTS; total: 12 ECTS

### 1. Optional elective course: 2nd Track module (6 ECTS)

In addition to the modules, you can attend one optional elective course (2nd Track) of two weeks and 6 ECTS per semester. If you are staying for the full academic year, you will choose the 2nd Track module in semester 2 before the start of the summer semester. The 2nd Tracks offer a scientific approach to medicine in a specific subject. They do not replace a major subject.

Would you like to attend a 2nd Track module in your first semester? Yes \_\_\_ No \_\_\_

Please choose from the following 2nd Tracks (3 choices):

- Genetics in Prenatal, Child and Adolescent Medicine
- Surgical Anatomy and Techniques in Trauma Surgery and Orthopedics
- Digital Health
- Basics: Inflammation, Infection and Tropical Medicine
- intermed - Global Health, Cultural Competence and International Medicine
- Cardiovascular Medicine
- Disaster Medicine
- Minimally Invasive Medicine
- Molecular Medicine of Rare Diseases
- Brain and Mind - Fascination Neuroscience
- Practical Medicine in Obstetrics, Pediatrics, Pediatric Surgery and Pediatric Cardiology
- Preventive Medicine
- Psychosocial Medicine and Health Services Research
- The Magic of Medical Imaging
- Regenerative Medicine
- Transplantation Medicine
- Tumor Biology/Oncology
- General Practice

Semester 1 (places upon availability):

1st choice: \_\_\_\_\_

2nd choice: \_\_\_\_\_

3rd choice: \_\_\_\_\_

### 2. Optional clinical clerkship

Alternatively, you can complete clinical clerkships during the lecture-free period or instead of a 2nd Track module. One week of clinical clerkships corresponds to 1.5 ECTS.
